**ORDER:**

The Director of Animal Husbandry, Telangana State, Hyderabad in his letter read above, has informed that the Telangana State Veterinary Biological and Research Institute is producing veterinary vaccines for past 60 years after obtaining license from State Drug Control Administration which has been issuing drug manufacturing license from time to time.

2. He has further stated that the Institute applied for renewal of license. The Drug Control Authorities advised that all the labs and production facilities should be modernized as per the standards of GLP and GMP (Good Laboratory Practices and Good Manufacturing Practices) of Schedule 'M' for the purpose of renewal of license. Accordingly, the Government of Andhra Pradesh has permitted modernization of this institute and budget has been allocated by the State and Central Governments. At this juncture, T.S.V.B.R.I. requested A.P. Pollution Control Board to grant CFE (Consent for Establishment) certificate for vaccine production facility. The concerned inspection team has visited the facility and certain correspondence took place vide Lr No. 518/PCB/ROH/2007 and Lr No. 246/PCB/ROH/MAB/2007-435 of Environmental Engineer, dt 22-10-2008. However, the Pollution Control Board has neither intimated anything nor issued CFE.

3. He has also stated that after much persuasion, it was orally communicated that issue of CFE is not possible as the facility is located in the center of the city and surrounded by residences, hospital, school etc. Mean while, their institute, has applied for renewal of drug license to Drug Control Authorities (DCA). The DCA have inspected the facility and communicated their observations that TSVBRI has not got PCB approval. Later on, drug license was granted to VBRI for the 3 bacterial vaccines but the grant of drug license was kept pending for 2 viral vaccines as the procedure for disposal of biomedical waste was not specified. He has further informed that the Telangana State Veterinary Biological and Research Institute entered into an agreement with M/S G.J.Multiclave (India) Pvt.Ltd., for disposal of biomedical waste which is an authorized firm of PCB for handling of common biomedical waste. This information was submitted to Drug Control Authorities and hence they have granted drug license for 2 viral vaccines as an additional products. This license is valid up to 7-11-2017.

4. The Director of Animal Husbandry, T.S., Hyderabad has requested the Government to accord permission to Telangana State Veterinary Biological and Research Institute for purchase of 10.18 acres of land in plot No. 4, &4A at IP Biotech Park PH-III, Karakapatla, Medak Dist for shifting of the Vaccine Production and Quality control facility of T.S.V.B.R.I. to get the consent for establishment from the Pollution Control Board out of the city to Karakapatla, Medak district.

(p.t.o.)

5. Government after careful examination of the matter, hereby accord permission to the Telangana State Veterinary Biological and Research Institute, Hyderabad to purchase 10.18 acres of land in Plot No.4 & 4A at IP Biotech Park, Phase.III, Karakapatla (V), Muludu (M), Medak District with cost of land is around Rs. 1,98,76,811/- from the funds available with T.S.V.B.R.I. for shifting the vaccine production and quality control facility of T.S.V.B.R.I. to get the consent for establishment from the Pollution Control Board out of the city to Karakapatla, Medak District.

6. The Director of Animal Husbandry, TS, Hyderabad is requested to take necessary further action accordingly.

7. This order issues with the concurrence of Finance (EBS.II) Department vide their U.O.No. 152/28/A2/2016, dated: 13-2-2016.
